

MACHINE QUILTING WORKSHOPS
Thursdays, July 20 and Aug. 17
6:30-8:30 pm Benicia Sr. Ctr.

Using the book:

25 Days to Better Machine Quilting-
Hands-on Learning to Improve Your Skills

By Lori Kennedy

Publisher: Martingale

Cost: \$29.99

These workshops are free to members of our guild. All you have to do is purchase Lori Kennedy's excellent book. We will follow her lessons together and learn how we can use doodles to expand our machine quilting skills.

Before our first meeting, please purchase the book and read pages 5-13.

Bring the book to the workshop along with the following:

Sewing machine with free motion/darning foot and walking foot

Sewing supplies, including Topstitching needles in sizes 12 and 14 and medium weight thread like Aurifil 50wt. Quilting gloves are helpful.

Materials to make a quilt sandwich-fat quarters work well for the top and bottom. Solid fabrics make it easy to see stitching. You will need cotton batting the same size as the fabric. We will baste these layers with safety pins.
